

WHY CHOOSE US?

We work hard to accommodate both large and small needs for disease state specimens.

We take pride in offering a customised service to assist you every step of the way, from concept research to final product manufacturing support.

Our Core Values:

- Provide Quality Products
- Offer Competitive Pricing
- Provide Fast Delivery Around The Globe
- Deliver Excellent Customer Service
- Drive Innovation
- Continually Invest In Our Community And People

We ship to all European countries, China, South Korea, Japan, Taiwan, Canada, Brazil, Argentina, the US and many other countries.

ABOUT US

AbBaltis offers a large range of human plasma and serum. The company has been supplying customers internationally since 2010 serving In Vitro Diagnostic test kit manufacturers, pharmaceutical companies and clinical laboratories.

The disease state materials we supply include plasma, serum, whole blood and urine sourced from donors with autoimmune diseases, infectious diseases, allergies and cardiovascular diseases.

Our materials are well-characterised using various In Vitro Diagnostic assays, such as EIA, IFA, RIA, CAP and latex agglutination.

We offer Free of Charge Samples for our materials, so please contact us today at info@abbaltis.com to request your FOC sample pack.

Supplier of Disease State Plasma,
Serum and Clinical Samples

Bulk Disease State Plasma

Below are some examples of the bulk disease state plasma we offer. The back-up volumes vary from 10 ml to approximately 900 ml.

Allergy: Alternaria alternata IgE, Apple IgE, Banana IgE, Beef IgE, Cat IgE, Cedar IgE, Cod IgE, Cow IgE, Dog IgE, Egg IgE, Latex IgE, Milk IgE, Mugwort IgE, Mussel IgE, Olive Tree IgE, Paprika IgE, Peach IgE, Pellitory IgE, Plantain IgE, Rabbit IgE, Scallop IgE, Shrimp IgE, Storage Dustmite IgE, Wheat IgE and more.

New: Avocado IgE, Brewer's Yeast IgE, Cacao IgE, Candida IgE, Cannabis IgE, Cow IgE, Crab IgE, Cypress IgE, Mouse IgE, Pigeon IgG, Rat IgE, Sesame IgE, Soy IgE.

Autoimmune: AMA-M2, ANA, ANCA, ASCA, B2GP1, Cardiolipin IgM, CCP, dsDNA, GBM, Gliadin IgA, Gliadin IgG, Jo-1, MPO, PR3, RA-33, RF, Ribo-P, SSA, SSB, TG, tTG IgA, TPO, tTG IgG and more.

New: Ku, LC-1, LKM, Mi-2, PCNA, PL-12, SCL-7o, TPO, TRAb.

Infectious: Bordetella pertussis toxin IgA, Brucella abortus IgG, Candida IgA, Chagas IgG, Chlamydia trachomatis IgG/IgM, CMV IgM, Dengue IgG/IgM, EBNA IgM, EBNA-1 IgA, EBV EA IgA, EBV VCA IgA, EBV VCA IgM, Echinococcus IgG, Enterovirus IgA, Entamoeba IgG, H. Pylori IgA, HSV 1 IgG negative, HSV 2 IgM, Lyme IgM, Malaria, Rubella IgM, Salmonella typhi IgG, Toxo IgM, VZV IgM, West Nile Virus IgG, Yellow Fever IgG, Yersinia IgA and more.

New: Anaplasma IgG, Ascaris IgG, Babesia IgG, Campylobacter IgA, Chikungunya IgG/IgM, Chlamydia pneumoniae IgM, Coxiella burnetii (Q-fever) phase 2 IgG, Entamoeba histolytica IgG, Hanta IgG, HEV IgG, HEV IgM, HPV IgG, Legionella IgG, Leptospira IgG, Parainfluenza IgG, Parvovirus IgM, Polio IgG, Strongyloides IgG, TBE IgG, Toxocara canis IgG, Zika IgG.

Custom Plasma and Serum Services

We can also provide customised serum and plasma processing and testing services tailored to your requirements.

These include:

- Delipidation
- Defibrination
- Charcoal Stripping
- Affinity Stripping
- Assay Development
- Bespoke testing
- Custom redispensing
- Freeze drying
- OEM labelling
- Customised plasma, serum and urine collections
